

EMERSON ECOLOGICS LAUNCHES 2015 EMERSON GRANT PROGRAM
Now Accepting Applications for 2015 Awards

MANCHESTER, NH, January 19, 2015 – **Emerson Ecologics, LLC**, the leading distributor of over 275 brands of professional-quality vitamins, supplements, prescription medications and natural health products, today announced that it is now accepting applications for **The Emerson Grant**. **The Emerson Grant program** supports the work of practitioners and promotes integrative medicine in the United States.

In April 2015, Emerson Ecologics will award grants totaling \$25,000 to support projects and initiatives designed to improve, expand or support the practice of integrative medicine. The Emerson Grant is a competitive, discretionary award ranging from \$500 to \$10,000. Projects may include legislative efforts, public awareness campaigns or enhancements to education or clinical training, but all projects are welcome.

The New York Association of Naturopathic Physicians, a winner of The Emerson Grant in 2014, used its grant to help further their efforts toward licensure for naturopathic doctors in New York. NYANP President, Rick Brinkman, ND, said, “The Emerson grant was a blessing to the NYANP legislative efforts to gain licensure for NDs in New York. The grant revitalized our efforts at a crucial time when financial support was essential to forward progress. Thank you Emerson!”

Emerson Ecologics is dedicated to the continued growth and awareness of integrative healthcare and wellness. The company recognizes that hundreds of volunteer-driven organizations work tirelessly to support integrative medicine. As the premier resource of products and services for the integrative healthcare community, Emerson wants to help these organizations achieve their vision. For more details on The Emerson Grant program or to download an application, visit emersonecologics.com/grant.
