

ABx Support™

Powerful intestinal microbiota support during antibiotic therapy.†

ABx Support™ is a carefully researched blend of the non-pathogenic yeast *Saccharomyces boulardii*. It also supplies *Lactobacillus rhamnosus*, *Bifidobacterium bifidum*, and *Bifidobacterium breve*, probiotic microorganisms documented to support the normal gastrointestinal microbiota during antibiotic therapy.†

- Provides probiotic support for healthy intestinal function during and after antibiotic use†
- Increases activities of intestinal brush border enzymes†
- Supports normal bowel transit time†
- Supports healthy inflammatory response†
- Available in convenient 14- or 30-day sizes for concurrent use during antibiotic use
