- VESISORB™ Technology for up to 440% more bioavailability than ordinary CBD products. Many formulas (compounds) including curcuminoids, for example, require a healthy gut to be absorbed. VESISORB™ technology can make gastrointestinal absorption a challenge. The VESISORB™ delivery system overcomes these challenges, better supporting the body's natural inflammatory response, as well as joint, brain and immune health.*
- Proprietary Super Critical CO₂ extraction process minimizes solvent and impurities with new detection (HPLC content at <1%)*.
- Cannabinoid profile confirmed by 3rd party Certificate of Analysis.
